

NOAA WEATHER-READY NATION AMBASSADOR

This program formally recognizes NOAA partners who are improving the nation's readiness, responsiveness and overall resilience against extreme weather, water and climate events. As a WRN ambassador, partners commit to working with NOAA and other Ambassadors to strengthen national resilience against extreme weather. This helps unify the efforts across government, non-profits, academia and private industry toward making the nation more ready, responsive and resilient against extreme environmental hazards. We will serve as a change agent and leader in the community to inspire others to be better informed and prepared, helping to minimize the impacts of natural disasters.
