

We would like to congratulate New Berlin Senior Taxi for being our March Business of the Month!

New Berlin Senior Taxi is a non-profit agency that was established in 1997. Their mission is to provide affordable transportation for seniors and disabled adults in our community. According to the Administration for Community Living, there are currently over 65 million people 60 years or older. All but a tiny percentage of them live in non-institutional settings, as do nearly 57 million people with disabilities. In New Berlin, 25% of the city's 39,740 residents are over 60 years old, and both of these populations are expected to see steady growth.

Last year, the New Berlin Senior Taxi was the main transportation provider to more than 130 New Berlin residents. For many of these residents, other transportation options can be limited or very costly. The New Berlin Senior Taxi staff is committed to providing seniors and disabled adults with a safe and reasonably priced means for them to remain active and retain their independence.

Please call (262) 814-1611 for more information about making your travel plans!
