

NEW BERLIN CITY HALL

The New Berlin City Hall will be under construction to replace the 36 year old HVAC system this spring. Construction will start March 29 and continue through the end of June. During this time there will be two large shutdowns of floors within the building. Although we are striving to keep disruption to a minimum, there will be services and information that may not be readily available during these shutdowns periods. We currently anticipate that the second floor (Assessor, Community Development, Inspection, Recreation, Engineering) will be impacted during the weeks of April 26 and May 3. Some staff will be relocated to the first floor of City Hall, however not all staff will be in the building during that time.

If you have questions or need assistance during this time, we recommend that you contact the appropriate department or call our City Hall main line at 262-786-8610 to determine if the services you require can be accommodated by staff that is currently in the building, or if you need to come in at all.

Please have patience and understanding as we are undertaking this large construction project.
