WHAT IS A CONCUSSION?
A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow or jolt to the head or body that causes the head and brain to move rapidly back and forth. Even a “ding”, “getting your bell rung” or what seems to be a mild bump or blow to the head can be serious.

WHAT ARE THE SIGNS & SYMPTOMS OF A CONCUSSION?
Signs and symptoms of a concussion can show up right after the injury or may appear days or weeks after the injury. If an athlete reports one or more symptoms of concussions listed below after a bump, blow, or jolt to the head or body, they should be kept out of play the day of the injury and until a health care professional, experienced in evaluating concussions, says they are symptom free and OK to return to play.

SIGNS REPORTED BY COACHING STAFF:
- Appear dazed or stunned
- Forgetfulness/confusion
- Moves clumsily
- Answers questions slowly
- Losses consciousness
- Shows mood or behavior changes

SYMPTOMS REPORTED BY ATHLETES:
- Headaches or pressure in the head
- Nausea or vomiting
- Balance problems or dizziness
- Blurry vision
- Sensitivity to noise
- Memory problems
- Confusion
- Feeling sluggish, hazy, or groggy

CONCUSSION DANGER SIGNS:
In rare cases, a blood clot may form on the brain of a person with a concussion. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body they exhibit any of the following danger signs:
- One pupil is larger than the other
- Cannot be awakened
- A headache that gets worse
- Slurred speech
- Seizures
- Repeated vomiting
- Loses consciousness for any amount of time

WHY SYMPTOMS SHOULD BE REPORTED?
If an athlete has a concussion, they need time to heal. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in youth athletes can result in brain swelling or permanent damage the has the potential to be fatal.

WHAT SHOULD YOU DO IF YOU THINK AN ATHLETE HAS A CONCUSSION?
If you suspect that an athlete has a concussion, remove them from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play until a medical professional says they are symptom free and OK to return to play. Rest is the key to help an athlete recover. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional. Learn more at: www.cdc.gov/concussions/HeadsUp/youth.htm

Due to increasing concerns about concussions in youth sports, we ask that you please review the following information, in accordance with Wisconsin Act 172, statute 118.293. Our participants’ safety is our number one concern!

The recipe for a wonderful childhood includes **adventure, learning, safety, friends, and fun**! These are the components that the New Berlin Recreation Day Camp builds on to design our day camp program. Our program will help your children grow in their sense of belonging as they meet new people and develop lifelong friendships. Campers will experience a wide variety of interests including arts & crafts, group games, nature exploration, cooking, science, and technology to keep your camper active throughout the day. Each week of camp is themed to add extra fun!

The fun, adventurous atmosphere at Day Camp is created by our staff. We go to great lengths to train our staff to give your kids their best summer ever. The exciting activities draw them in, but the relationships formed here are why families come back year after year. Our program locations may be a bit different than years past, but what has stayed the same are the traditions and values we bring to our day camp program.

Modern Mexican Cuisine
The truth is that the world loves Mexican food. It can be traced back to the era of Aztecs and Maya. But in the modern times, after the Spanish Conquest of the Aztec Empire and the rest of Mesoamerica, Spaniards introduced a number of foods, the most important of which were meats from domesticated animals (beef, pork, chicken, goat, and sheep), dairy products (especially cheese and milk), rice, sugar, olive oil and various fruits and vegetables. Tonight we are going to touch on some of this history and sample…
Gazpacho, Chile Rellenos, Mexican Corn Salad, Homemade Jalapeno & Garlic scented Refried Beans, Churros.
